The plot is situated on a slope in the second sea line ,close to the sports harbour in Cala LLonga. If a project were to be built, it would be possible to approve a front and rear entrance as it reaches the 2 roads. With a two storey building, the second floor would have sea views. Access to electricity and water supply is immediate. Don't miss this wonderful opportunity to build a house to your taste in the most beautiful coastal village of Mallorca. .
