Camporrosso Serpentine is the newest chapter in the exclusive Camporrosso Village, a residential concept that brings together modern Mediterranean architecture, open spaces, and a lifestyle deeply connected to nature. Located in the serene hills of Finestrat, just minutes from the coastline, this new development is designed so that every home faces the sea, inviting in natural light and spectacular views. At the heart of the community is a landscaped riverbed, shaped like a flowing serpentine, which divides the space into two lush environments. On one side, a small Mediterranean forest offers shaded paths and fresh air, while the other features terraced gardens with native plants, bougainvillea, and climbing...(Ask for More Details!)
