303m²

707m²

N/A

This newly renovated villa is within walking distance of the hidden bays of Cala Ratjada. Right on the doorstep is a green area with hiking trails to the lighthouse and bays. The house has five bedrooms and two living rooms. This makes it ideal for different generations to live in. Each of the bedrooms is bright and large. Two of the bedrooms have a view of the sea. The garden offers many opportunities for development and is perfect for a BBQ by the pool. The villa has a valid rental license for 10 people, which also makes it very interesting as an investment property.
