3

307m²

439m²

Completion Date: December 2025 The 46 independent villas are designed to offer a luxurious and modern lifestyle in harmony with nature, featuring stunning mountain views, infinity pools, and a privileged location that combines privacy with convenience. Built on insulated reinforced concrete foundations, the villas feature a solid structure of concrete walls, slabs, and pillars, with terraces that include waterproofing and thermal insulation. The SATE façades have a clean white acrylic finish, while interior walls are made of 9 cm ceramic brick and plastered on both sides. Porcelain tile flooring is used seamlessly throughout the interior and exterior, with anti-slip treatment outdoors. Ceilings are plasterboard, with removable sections in bathrooms...(Ask for More Details!)
