259m²

50,000m²

N/A

Country finca in need of renovation between the village and the port of Andratx. This property is a refurbishment project that has lots of possibilities as a family home that is located on the main road to the port of Andratx. The property has an extension of 50. 000 square meters. On it, there is a main house that can't be demolished, it can only be refurbished entirely in the inside and can't be extended. There are other constructions and only allow refurbishment. There is a very large pond that needs fixing. There is a natural fountain with unlimited water supply for the property which is a great plus.
