158m²

289m²

Located in one of the most prestigious neighborhoods on the South West of the island, an area called Bendinat, we find this spacious south-facing duplex with its own private pool. This property is currently under a complete renovation which will improve the floor plan distribution, and give the property modern finishes. The new distribution will move the daytime area to the ground floor, and the nighttime area to the top entry level. This will result in seamless access from the living room and kitchen into the open 60m terrace, improving the experience of outdoor dining in the warmer months. Both floors have views toward a protected green zone.
