Town House in Colonia de Sant Jordi

2

2

129m²

363m²

This project, called MARINA 45, foresees the construction of three typical Mediterranean village houses in Colonia Sant Jordi, almost next to the beach of Es Trenc. Three village houses with technology and materials imported from Germany. Underfloor heating and air-conditioning by heat pumps/aerothermics, garage for one car with direct access to the house. Choice of kitchen with a closed budget, swimming pool, garden and 3 bedrooms with bathrooms en suite. Double glazed windows with thermal break, sliding shutters, water softener, pressure pump for running water and many more extras are part of this fascinating project that can become your next home on our island, next to the best and most...(Ask for More Details!)
