496m²

N/A

This renovation property is located in the heart of Campos. The historic house not only impresses with its unique location, but also with its immense constructed area and spacious garden. A valid building licence for the renovation has already been obtained so that work can begin immediately. Once the work is complete, you can call yourself the proud owner of a manor house with classic and modern elements, a garden with pool, an open-plan living/kitchen area and four double bedrooms. We will be happy to show you all the details on site.
