This new development in Palma combines Nordic quality, design and construction technologies in unique Mallorca properties and offers living comfort and high functionality. The community has beautiful gardens and an excellent swimming pool and is due for completion in 2021. This south-facing 2 bedroom, 2 bathroom ground floor apartment has a large garden and is located in an elevated position above the community swimming pool, which can be easily and directly accessed from the private garden. Features include underfloor heating, air conditioning, indirect lighting, stone and wooden floors, as well as top quality finishes and fittings. The Mallorca property has also an underground parking space and a storage room. Other...(Ask for More Details!)
