We now have available these 3 amazing modern villas with spectacular sea views from any corner of the house. Designed and set on 2 levels, with floor to ceiling windows that allow light to enter the interior and is protected from the sun by its architecture and layout. With a southeast location and parallel to the beach, this beautiful villa, like all our villas, will have the energy certificate A. The villa comes complete with 3 bathrooms and 3 bedrooms, all with views of the Mediterranean and access to a terrace. This villa has been designed using the latest techniques to have an ecological and low maintenance building. All the qualities used in the construction are of the highest standard, woods and carpentry for our luxury designs. There is a team of in-house interior designers who will work together with you to find the best choices in furniture and finishes. The staircase arises from the pool, connecting the rest of the house i...
