Las Atalayas is a relatively new community with 30 villas surrounding two community pools. This excellent option has been carefully upgraded to include air conditioning and furniture. The villa is beautifully presented. The L shaped living room leads directly to the barbeque terrace and the nearest pool just a few strides over a delightful feature bridge. Parking is directly outside the villa and one of the two community pools very close by. In addition to individual reverse air cycle air conditioning units there is an attractive open fireplace.
